*1 Guideline values are based both on experience and parts of test ISO 8611, which tests with evenly distributed loads at room temperature (20°C). Varying data may result from different conditions of usage. Your specific requirements can be identified upon request. *2 The pallet dimensions and weight are variable. *3 Minimum quantity required *4 Virgin PE material is also available, with equivalent load capacities and weight. - We reserve the right to change any of the stated information without prior notice.

High stability of multiple stacked pallets thanks to unique locking system.

- > Cost effective
- > Low height
- > Easy and save to handle
- > Unique locking system: interlocking of the drums from both top and bottom of the pallet when stacked
- > Resistant to most acids and solvents
- > Resistant to insects, bacteria and fungi
- > Environmentally friendly product of 100% recycled plastic, completely recyclable

Easy and safe handling of stacked drums.

CPP Plastic Pallets

CABKA meets the high standards for ISO 9001:2000. Our certified quality management encompasses not only product manufacturing, but customer service as well. In addition, CPP plastic pallets are regularly tested in accordance with relevant elements of the standard ISO 8611. All this guarantees that our quality products

meet the demands of the market and our customers.

CABKA products are manufactured in Germany, Israel and North America, giving our customers, wherever they are, a crucial advantage to choose the shortest, fastest and cheapest route for getting product to market.

CABKA's wide range of plastic pallets provides solutions for a diverse array of applications. Through our development department, with our own tool designs and construction, we can meet even unusual requests from our customers. In every way, you profit from our decades of experience.
